Our friend and award-winning military vehicle and car restoration expert, Gary Wirth, is in urgent need of help. We invite you to come together with us to offer financial help to him and his wife, Sherry, in this difficult time.

Gary was diagnosed with Chronic Lymphocytic Leukemia (CLL) in 2007. But now, his condition has worsened. He needs a T-cell transplant at Mayo Clinic in October, where they will essentially replace his immune system with that from a carefully selected donor. He has already started preparation treatments weekly and will continue to do so until the transplant surgery.

Once the transplant is completed at Mayo, he and Sherry will stay in Rochester for at least 3 months in near isolation for monitoring and follow-up treatment. The prognosis is good, but not certain, and the journey will take months on a long and sometimes difficult road.

Thankfully, their health insurance will pay for most of the transplant costs, but not for his stay. And without work or income until after his Rochester stay, their everyday expenses need to be covered as well.

The need is real. And the need is now. Their expenses are already mounting. Will you please help contribute to the Gary Wirth Restoration Trust? Send a check today, make a PayPal transfer to garysrestorationtrust@gmail.com, or a deposit to the Gary Wirth Restoration Trust at any Wells Fargo Bank.
